That is why we produce most of our collection in our factories in Europe, ensuring a seamless and timely process from initial order placement, to receiving the ready-to-wear uniforms. Moreover, we can deliver optimal turnaround times for any additional orders, to cater for your growing business needs.

It would be our pleasure to do business with you.

# PROUD TRADITIONS AND STRONG VALUES

Back in 1963, SUNWILL was founded as an exclusive tailor, producing exclusive men's trousers. In 1989, the family-owned company F. Engel acquired the ready-to-wear clothing business, which has, over the years, become known and loved for designing and producing unique men's trousers. Today the responsibility for continuing and further developing this tradition-rich men's fashion company lies with the 4th generation owners John and Lars Engel.

## HIGH QUALITY, DURABILITY AND PERFECT FIT

For many years SUNWILL has prided itself on specialising as a trouser tailor. The company has since expanded the brand to include ready-to-wear suits, and now also tuxedo and tail coat. Corporate wear continues to be an important branch of SUNWILL, and has become a significant part of the company's concept. The development is entirely the result of SUNWILL's continued focus on its core values: high

quality, durability and fit - down to the smallest detail. These are values that we take great pride in. We don't just produce clothes by the metre without thinking about its purpose. We go the extra mile and make clothes that focus 100% on achieving the perfect fit.

## THE LEGACY CONTINUES

John C. Engel's grandfather, Carl J. Engel, founded F. Engel with his brother Jacob and their father Friedrich Engel in 1927. Back then, the company produced work clothes in the new and durable material of denim. John is therefore 4th generation and practically born into the textile industry he so loves.

John C. Engel is humbled by his responsibility of continuing the family legacy into the future, alongside his brother Lars C. H. Engel and a host of talented employees.

## 6 TAILOR-MADE BUSINESS WEAR SOLUTIONS

No matter what role you play in a company, it is important to be presentable and well-dressed. And it is just as important that the employees feel comfortable in their clothes. Therefore, design, fit and functionality are three very important parameters when choosing business wear for your employees.

Every company has its own routines and work methods – and these place varying demands on the business wear.

### ADAPT OR DESIGN YOUR OWN CLOTHES

When we develop new models, we try to take into account a range of different needs and suit as many users as possible.

But there will always be some sectors and specific companies that need features our stocked items do not have.

It is important that business wear matches your needs, and we can therefore produce custom business wear in line with your wishes. Why compromise, when you can add exactly the features you need to make your business wear optimal?

The options for tailor-made solutions are many! Our references count everything from embroidery on the pilot's blazer to a transfer printed logo on the back pocket of a sales person.

# TRAVELLER — ALWAYS FRESHLY IRONED

By using a special fabric, these clothes are less likely to crease, even after sitting for many hours. The fabric corrects itself and looks almost freshly ironed. Traveller is most suitable for frequent travellers – or those who need to be presentable and crease-free all day long. The Traveller range consists of many pieces and styles, and contains business attire for both men and women.

— COLOUR SAFE / WATER AND DIRT REPELLENT

# COLOUR SAFE / WATER AND DIRT REPELLENT — FOR EXTRA DURABILITY

Business wear needs to be more than just comfortable and presentable, it also needs to be durable and tolerate extra wear. The colour safe technology is a special colour method that makes colours more durable. The fabric is prepared and treated before it is coloured, which binds the colours to the material. This method results in extremely durable colours, which don't fade or turn grey – even after multiple washes.

To avoid stains forming on the clothes, we add a special water and dirt repellent finish on selected pieces. This finish acts as a special layer that prevents liquid from penetrating the fibres. Any spillages on the clothes will just glide off without leaving any visible marks.

- SUPER STRETCH JEANS - FOR BETTER COMFORT

67

## SUPER STRETCH JEANS — FOR BETTER COMFORT

A nice pair of jeans is the perfect attire for a more casual look. However, the problem with many jeans is that the fabric can seem stiff and inflexible, which is hardly optimal if your job requires you to sit for long periods of time.

The Super Stretch fabric contains larger quantities of elastic fibres than other stretchy fabric. The elastic fibres woven into the fabric make it extra flexible, so that it follows the body's movements. As well as providing supreme comfort, super stretch clothing stands out by its ability to return to its original shape, and thus keeping its shape for longer.

**AT SUNWILL, WE TAKE RESPONSIBILITY  
FOR THE ENVIRONMENT**

**ENVIRONMENTALLY**

We cooperate with suppliers who have environmentally friendly production facilities. Selected suppliers use alternative energy sources (solar cell energy).

**RECYCLED PLASTIC**

We pack our products in bags made from recycled plastic.

**REDUCE CO2 EMISSIONS**

90% of our production takes place in Europe to reduce CO2 emissions.

**MINIMAL TRANSPORT  
DEPARTURE**

Only one weekly transport departure from our factories in Lithuania.

**REDUCED WATER  
CONSUMPTION**

We strive to use materials that are produced with reduced water consumption.

**AVOIDING  
OVERPRODUCTION**

Monitor stock to avoid overproduction of NOS (Never Out of Stock) articles.

**ON-DEMAND**

We produce and deliver on-demand collections of fabric that may still be in stock.

**ALTERNATIVES**

We suggest alternatives to out of stock items.

**TIMELESS DESIGNS**

We design timeless collections.

# PHILOSOPHY AND SUSTAINABLE ACTIVITIES

From the very beginning, SUNWILL has been about making high quality clothing for the well-dressed man. We believe that the road to a more sustainable wardrobe starts with good, timeless design in a quality that lasts season after season.

We offer customers an alternative to rapidly changing trends and fast fashion - something that is often associated with overproduction in factories far from the consumer.

At SUNWILL, fit and functionality is of high priority, and we take pride in designing clothes that can be used for multiple occasions simply by changing accessories and shirts. With durable quality and good design, you do not have to fill the

wardrobe with clothes that you do not really need. A pair of jeans, a pair of trousers or a blazer that fits well and is made from durable materials is far more powerful - environmentally - than using a small number of recycled fibers in one garment.

By adding smart, yet elegant details, we strive to ensure that the majority of SUNWILL's products last longer by choosing high quality materials and strive for a production that is as environmentally friendly as possible. Therefore, we continuously work to ensure that materials and clothing are produced responsibly with respect for the environment and the people involved.
